Subject: Microsoft Settlement

Gentlemen: It is time to get on with business. The settlement agreement, while still unfair to Microsoft, is most agreeable to all those it affects. It is time for forget those special interests, those that are complaining because they cannot compete at a fair price with a good product. Microsoft has made available to the public programs that are the best on the market at a price that anyone can afford.

Let's get on with it and finalize this settlement.
